

Safe, Natural and Approved for use in Organic Hens.

Every batch of Beryl's Friendly Bacteria is rigorously tested to ensure that it is free of all known avian pathogens such as harmful bacteria, viruses and mycoplasma. It has also undergone extensive testing to ensure that it is safe for humans to handle. You can be confident that it is entirely safe to use.

Beryl's Friendly Bacteria is a completely natural product which has been approved for use in organic hens by the Organic Food Federation and Organic Farmers and Growers.
